

For Chem 226 Students Only

Are you interested in?

- *Putting Organic Chemistry into a “real-world” context?*
 - *Benefitting from the experiences of organic chemists in industry and successful former Chem 226 students?*
 - *Having people interested in helping you to make better informed career decisions.*
 - *Practicing the lab skills learned in Chem 226.*
 - *Growing intellectually, and having added help to succeed in Chem 226 and beyond.*
 - *Developing a foundation in research that will transfer with you and distinguish you from your peers.*
-

If so, are you prepared to invest one evening per week?

Come to an organizational /informational meeting and learn more!
